

THE BRAINERD DAILY DISPATCH

Volume 10, Number 151

BRAINERD, MINNESOTA, MONDAY, NOVEMBER 28, 1910.

Price Two Cents

MAY DEPEND ON PRESIDENT TAFT

Success or Failure of Short Session of Congress.

SITUATION RATHER CONFUSING

Character of the Coming Executive Message Will Have Much to Do With the Work to Be Accomplished While the Republicans Are in Control of Both Houses of Congress.

Washington, Nov. 28.—When congress meets again it will have just three months in which to perform whatever may be the demands of a Republican administration. After that the fate of the Taft legislative programme will depend upon the will of a Democratic house and a Republican senate, a condition which will continue until the end of President Taft's present term of office.

Confronted with a situation strewn with confusion the success or failure of the approaching short session is believed to rest with the character of the coming executive message. Many of the regular Republicans who were defeated in the recent elections are not expected to carry with the best of grace the blows so harshly administered and this fact of itself cuts out for the president a task offering difficulties far more complexing than any that have been presented to a national legislature within a score of years.

Realizing that he will be criticised if he fails to demand of congress further revision of the tariff—especially a wool and woollen schedule—and fully cognizant of the fact that the prospects would be all against the success of such a programme, if submitted, the president, it is said, has not made up his mind definitely what his course will be.

Out of the whole membership of congress comparatively few have reached the city and there has been little opportunity for exchange of views as to what should be done during the remainder of the present congress. So far as there has been expression the predelections of congressmen are against any extended programme. Nevertheless, the administration is manifesting a desire to utilize the time to the best advantage. So far as appropriation bills are concerned it is not believed there will be lack of co-operation to facilitate their passage.

Would Take Broad Position.

Leaving the appropriation bills out of consideration the Democrats are disposed to take the broad position that legislation of a general character should be postponed until they come into the degree of power that has been conferred upon them. Contending that the last election was an expression of the popular will they urge that it should be heeded to the extent of permitting the Democracy to take the initiative in whatever new action is to be considered. The Democratic leaders are much embarrassed by the president's position in favor of beginning the revision of the tariff by schedules. They go even farther than Mr. Taft in their denunciation of the wool schedule and, while preferring themselves to designate the way of its rewriting, they admit that they would find it difficult to resist an effort at reduction whenever and by whomsoever it might be undertaken. Such also is the case with reference to other schedules; they could scarcely do less than co-operate in reductions at any time.

There is some sympathy among Democrats with the president's plan for a federal incorporation act and for the modification of the law relating to incorporation and trusts.

Personally the president has made it clear to his callers that he does not purpose to withdraw any part of his programme, although compelled to alter his plans somewhat just because the Democrats are about to come into control of the house. The short time that remains of Republican majorities in both branches of the national legislature is to be used by the president as an argument in favor of pressing forward.

Within the short session fourteen regular appropriation bills, carrying an aggregate of a billion dollars or more, must be passed. Otherwise, there would be necessity for an extra session next spring.

E. Benjamin Andrews III.

Lincoln, Neb., Nov. 28.—Since his return several weeks ago from an extended foreign tour E. Benjamin Andrews, former chancellor of the University of Nebraska, has been a patient in a local sanatorium. His condition, it is learned, is not improved and his friends are concerned over what is regarded as a critical ailment.

Navy Defeats Army.

Philadelphia, Nov. 28.—The Navy, in a hard, clean game of football and before a large and enthusiastic crowd, defeated their old rivals from West Point by the score of 3 to 0. After six attempts to boot the ball from placement over the West Point bar Dalton, the right halfback of the midshipmen team, succeeded on his seventh effort and the three points which he had been striving for looked good to the middies and proved to be sufficient to win the game.

ON TO BRAINERD IT THE SLOGAN

Of the Northwest and St. Louis County will send Delegation of Workers, Not Politicians

AGRICULTURE AND SETTLEMENT

And a Square Deal in Reapportionment is What the People of Northern Minnesota Want

The Duluth News-Tribune in speaking of "St. Louis County at Brainerd," says: "Duluth and the range cities will send a strong delegation to the Brainerd convention. These men will not go to glorify Duluth nor St. Louis county, but for business and to accomplish results. St. Louis county has nothing to ask that is special to it; it has much to promote that is of common interest to the state of Minnesota. Not a delegate will go from here as a politician; but all will go as business men.

Not one of the delegates named from Duluth is an officeholder, or has an active interest in party politics, unless it is his honor, the mayor. St. Louis county will not ask for any association office; it does not want one.

Duluth will not ask for the next meeting, but will be glad to entertain the association at any time it wishes to come here. In short, St. Louis county will be there with an absolutely clean personal slate, but earnestly anxious to boost Northern Minnesota, that it may be developed agriculturally without waiting another fifty years.

It is agriculture and settlement in which these people of this county are most intensely interested. Moreover, they have proved this in practical ways. The development under way and the plans now outlined here and financed, prove its faith and sincerity.

Duluth believes that the Northern Minnesota Development association has already proved its great usefulness, but that its power for good has only been scratched. Unified, in earnest, asking only what is fair and reasonable, presenting each proposition in practical form, so that it will appeal to business sense and judgment, it will be a great continuing force for the good of the entire state.

This county will work for continued harmony, combined effort and the square deal. It will take its chance in the ranks with the rest, and giving the fullness of its strength to an eternal and everlasting boot.

On to Brainerd! St. Louis county will meet you there to exchange the glad hand and to do whatever it is asked to do or that falls to its share."

England's Newspaper Tax.

On June 15, 1855, England's newspaper stamp duty was abolished, and the reign of the cheap daily began. This "tax on knowledge" was first imposed in 1712 and was made most severe by the act of 1820, which fixed it at 8 cents a sheet, with 87 cents duty on each advertisement. The Whigs reduced the duty to a penny in 1836, but when the Crimean war broke out and every one wanted the news even a penny duty was found to be intolerable. Its repeal is called the Magna Charta of the British press.

BEST WAY TO BREAK A COLD

The Most Severe Cold and Grippe Misery Will be Relieved in Just a Few Hours

You will distinctly feel your cold breaking and all the grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take the harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

CLARK TELLS OF THE NORTH LAND

Governor of Alaska Submits His Annual Report.

CHEAP FUEL BADLY NEEDED

Criticises Policy Which Forbids All Development of the Large Coal Resources of the Country—Says That Coal is Necessary for Industries and for the Comfort of the People of Alaska.

Washington, Nov. 28.—Expressing it as his opinion that the want of cheap fuel and the delay in opening the Alaska coal fields are the strongest adverse factors in the present problem of territorial progress, Governor Walter E. Clark of Alaska in his annual report to the secretary of the interior declares that "the ill-advised policy of forbidding all development of the large coal resources of Alaska, or of placing such restrictions upon development as to make the embarkation of private capital impossible, is to be deprecated, while the policy of conservation by proper use is to be encouraged."

"This coal," he says, "is needed for the industries of the territory and for the physical comfort of our people, and on no account should it be withheld from those uses."

The present impossibility of mining coal, either under title or lease, he explains, is in no measure responsible for the suspension of one of the principal railroads. This has caused a general feeling of discouragement over the business situation in those parts of Alaska where development and settlement ought to be going on most rapidly.

Governor Clark says it appeared in public discussions of the subject that the opposition to opening the Alaska coal fields "springs chiefly from two sources—those persons who fear a monopoly and those who would have this coal held as a reserve supply for the future." He further says that while the present coal land law is not a good one, "it certainly lends no hope to monopolists, but rather is calculated to discourage the embarkation of capital."

Governor Clark says it appeared in public discussions of the subject that the opposition to opening the Alaska coal fields "springs chiefly from two sources—those persons who fear a monopoly and those who would have this coal held as a reserve supply for the future."

Have you ever travelled abroad and been bothered by giving tips, and been angered at excessive charges because you were a foreigner? Have you ever visited in other American cities and been aggravated by uncalled for and excessive overcharges, petty graft? Sure you have. Very well then, don't practice any such tactics on our visitors during the Northern Minnesota Development association meeting. It leaves a bad taste.

The St. Paul Dispatch in a recent issue tells why "Pussyfoot" Johnson includes Brainerd and other places remote from the Indians, giving as a reason the activity of F. W. Zollman, the brewer's attorney. Among other things Mr. Johnson says "He started the whole hue and cry against me." Assuming that the statement is true, why should he punish the people of any town or city because he has a grievance against Zollman, and the question is asked by many of the people of the northern part of the state "why should a policy of retaliation be carried on which cannot help but inflict hardships on many people not parties to the controversy."

FINNS DANCE IN FINNISH COSTUME

Six Couples Portray the Finnish National Dance at Moilanen Hall Saturday Evening

LARGE CROWD IS PRESENT

Program Given by Both Branches of Socialists and Short Address Made by Alderman Henning

The Finnish national dance was presented in its entirety and in correct costume by six couples at the Saturday evening entertainment given at Moilanen hall by the Finnish and English branches of the Socialists.

The six couples who took part were E. Lind and Miss Ella Star; B. Kulma and Miss Sophie Hill; Karl Jantti and Miss Ina Bihlmin; Selma Kulma and Miss Mamie Sarlin; John Hill and Miss Jennie Numan; Oscar Wakama and Miss Emma Lind.

The ladies were attired in costumes having a white waist with red shoulder straps, the red bodice being laced with black ribbons. The skirts were black and the front of each was embellished with two sets of stripes consisting of ribbons of red, black, yellow, black and green. They wore their hair in long braids.

The gentleman wore white shirts with red stripes at the breast, short knee pants, black stockings and slippers, and black hats, adorned with red ribbons. The dance was presented in four different movements, embracing a waltz, schottische, polka and minuet steps.

The old country music was furnished by Walter Lund at the piano and Tommie Kajala violinist. An extensive program was presented in Finnish and English, concluding with an address by Alderman Henning, who outlined the aims and methods of the socialist party and drew attention to the coming city election. Refreshments were served at the conclusion. Dancing was indulged in during the evening, the music for this being furnished by Miss May Bruce.

Y. M. C. A. NOTES

The Y. M. C. A. Regulars beat the drums in a hotly contested game by a score of 25 to 11. The Regulars were in their new suits and were determined to start well in them. The suits consist of maroon shirts and grey pants and together with their skin colored socks make them a well looking team.

The Y. M. C. A. will extend the courtesies and the privileges of their building to the visiting delegates of the Northern Minnesota Development association.

State of Ohio, City of Toledo, Lucas County, etc.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in this city of Toledo, Ohio, and State, before said, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrah that cannot be cured by the use of Hall's Catarrah Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

A. W. OLEASON
Notary Public.
Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO.,
Toledo, Ohio.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

LID IN BRAINERD

No Saloons Closed at Present Writing—City Clerk Has Received No Notice of Any Kind

A stroll around the city showed that the saloons of Brainerd are still doing business and that no closing orders appear to have been received in Brainerd.

The city clerk has received no notice about any phase of the business. Smoke is coming out of the brewery stacks and beer continues to be manufactured.

Dr. Beise states that he has received an official communication from Prof. Bass, of the state board of health, to the effect that the river water is in good condition and may be used without boiling for drinking purposes. This statement from our local health officer tends somewhat to relieve the dry feeling in Brainerd.

Rumors are heard that "Pussyfoot" Johnson went through Brainerd last night and many hope that "Pussyfoot" will not come back.

There is a feeling of doubt and uncertainty regarding the whole liquor question in this city and many wish it would be definitely settled one way or another.

LOOKS LIKE BIG CROWD

Meeting is a Business Affair, Not a Convention, and the People are Intensely Interested

The prevailing question these days about town is: "Do you think that there will be many people here?"

Undoubtedly this question is largely prompted through the public's interest in the meeting of the Northern Minnesota Development association, nevertheless, there is a possibility that some of our inquirers may be a little skeptical and mistrust our calculations when we state that there will be at least five hundred people here during those two days.

As the opening day draws nearer our hopes rise and we have reasons to believe that our statement is very conservative. This meeting is a business affair and not a convention of a fraternal order. Our programme alone will draw a crowd. The vital significance of the organization is bound to make this meeting successful and bring a crowd.

If you don't count over five hundred visitors during those two days, then blow away the smoke and count over again. Just keep your eyes on Brainerd and on the programme.

ADVERTISED LETTERS

Letters remaining unclaimed in the postoffice at Brainerd for the week ending November 25. When calling for these letters please say "advertised."

COMPLETE TURBINE REPAIRS AT SHOPS

Messrs. Gilmore, Hempel, Smith and McInnes, of Pittsburgh, Rush the Repairs for

WESTINGHOUSE MACHINE CO.

These Men Worked 42 Hours Straight on the Job and Should Receive Credit for Their Good Work

Messrs. E. S. Gilmore, John Hempel, George E. Smith and Hugh McInnes of the Westinghouse Machine Co., of Pittsburgh, Penn., have completed the repairs to the shop turbine and Brainerd may again breathe easy and be sure of its portion of light from the big dynamos of the Northern Pacific railway shops.

The first repairs to the injured turbine were made by local machinists and were of a temporary nature and intended to carry the plant until the Westinghouse experts could arrive and make the repairs permanent.

Rumors are heard that "Pussyfoot" Johnson went through Brainerd last night and many hope that "Pussyfoot" will not come back.

There is a feeling of doubt and uncertainty regarding the whole liquor question in this city and many wish it would be definitely settled one way or another.

In these days one hears so much about the results attained by great corporations and business enterprises and too often the individuals working for these companies and producing the results, receive no mention and no praise whatever.

With a big convention about to hold the largest meeting ever held in Brainerd or in northern Minnesota the light question was of supreme importance and the quick repairs made now insure the city an adequate supply of light, for all of which the city is thankful to the four gentlemen named above. They left this noon for Regina, Canada, to attend to some work at the Regina power plant.

Good Warm 4-room Cottage For Sale

BIG CROWD COMING

From Every Quarter Comes News of the Stir and Bustle Incident to the Brainerd Convention

Duluth Herald: The Bemidji conference was big, the Crookston conference was bigger, and the Brainerd conference is going to be biggest.

From every quarter of Northern Minnesota comes news of a stir and an interested activity which prove that every part of the territory covered by the Northern Minnesota Development association is going to be represented by its best hustlers and most wide awake citizens. Not only is each county and each community, apparently, sending its lawful quota of delegates, but the lists of alternates seem to be so much bigger than the lists of delegates that it is a certainty that there will be a big and busy crowd of rooters on the side lines to partake of the spirit of the gathering and to help in its work by enthusiasm if by nothing else.

This is the proper thing, right through. Brainerd is the gateway to St. Paul, in this case, because at Brainerd will be outlined the program for Northern Minnesota's campaign before the legislature. Everyone should be there.

Foley Independent: "On to Brainerd," is the slogan and it sounds good. Situated in the heart of so-called Northern Minnesota it occupies a strategic point which was well chosen by the Northern Minnesota Development association and that the meeting which will be held there next month will be of great benefit to the state at large is a foregone conclusion. Too long have the wonderful resources of Northern Minnesota been neglected and allowed to fall prey to flames, thieving lumber barons and avaricious steel companies. It is high time that its wonderful agricultural and mineral wealth be conserved for the benefit of future generations.

Little Falls Herald: All Northern Minnesota seems to be alive to the benefits to be secured by a rousing meeting of the Northern Minnesota Development association to be held at Brainerd December 1 and 2. Matters pertinent to the welfare, especially to this portion of the state will be taken up and fully discussed, which will include legislation favorable to reapportionment, the one-mill road tax, consolidated rural schools, etc. Concerted action by the northern counties will reap the benefits of their labors.

Notice

Owing to frequent inquiries as to the advisability of drinking city water, I will say that Prof. Bass, who has installed the purifying plant, advises me that it is perfectly safe to drink the water without boiling.

DR. R. A. BEISE,

151t6 President Board of Health.

An Artist's Fad.

A Parisian artist in lieu of a picture gallery has a collection of great painters' palettes, some 500 in number, among them being Corot's, Isabey's and Theodore Rousseau's. On many of the palettes are sketches by the painters who used them.

FOUGHT FOR IMPROVEMENT

Bob Dunn on Good Roads Will be Worth Listening to at Monday's Session of Convention

Have you ever heard Bob Dunn talk on good roads? If not, then come to the Brainerd meeting of the Northern Minnesota Development association. His presentation of the good roads question is becoming historical and some day his speeches will be repeated by the coming generation of school children with as much fervor, wit and interest as the anecdotes and stories of Mark Twain.

For years Mr. Dunn has fought for country road improvements, and it must have been gratifying to him that at the recent state election the one and only one of six amendments voted upon, the one referring to a greater tax for road improvements was the only amendment that received sufficient votes to carry it, and also received more than any other amendment.

All eyes were on the good roads amendment and all eyes should now be on Brainerd. Mr. Dunn is a thorough and a most interesting speaker, and as his subject has just received concurrence at the polls, we will trust that these few lines will suffice as a reminder that Mr. Dunn speaks at the Brainerd opera house on December 1st, 1910.

IMPORTANT WORK FOLLOWS

D. E. Willard Addresses the Brainerd Meeting on Railroads and Land Development

Railway companies are frequently known only as the pioneer carriers into a new territory, which of course they are, but by no means does their work end there. A far greater and more important work follows, the development of the land through which they pass. And it is about this part which the railway company takes in the development of the land tributary to its lines that Mr. D. E. Willard will speak at the December meeting of the Northern Minnesota Development association in Brainerd.

You may have always known that a railway company maintained a freight agent, a passenger agent, a land agent and an immigration agent, but you probably did not know that some companies have a land development agent whose principal duty is to study the soils along their routes for the benefit of the settlers who are developing the adjacent areas, or about to locate therein.

Mr. Willard has spent many years in the studies of soils in connection with geological work. All soils primarily come from rock formations. Soils are the remnant of rock decay, and in order to readily appreciate at first sight the full value of soils, one should know the rock formations from which they are derived, or else it becomes necessary to resort to chemical tests.

Mr. Willard has made extensive examination of Minnesota soils for the Northern Pacific railway company and has become very enthusiastic, especially as to Northern Minnesota soils, over our prospects.

The work of this type which the Northern Pacific railway company is doing throughout its territory entails a large expenditure every year, and because of the generally meager knowledge the public has of this work, Mr. Willard's address will be listened to with interest.

PELICAN CREEK RIFLES

John Beavers is hustling to get all of his corn husked before cold weather sets in. He says it has been a good fall for that work. He has cut a little over eleven hundred bushels. He had forty acres of good corn.

Miss Rose Vaartz, teaching in Dist. 58, and Ethel Johnson teaching in the Lauer Dist., went to Brainerd to spend Thanksgiving at home, to eat turkey I suppose.

Gus, Jay and Pearson Gould, are all at home with Mr. and Mrs. Harry Gould for a vacation a little time and spend Thanksgiving. They killed three deer and plenty of ducks.

The most novel way of getting up north for a fall hunt, a party from Little Falls had. There were four of them with two autos. The party consisted of Dr. Moyer, Geo. Schroeder, Mr. Grondin and Ex-Cong. C. B. Buckman. They got seven deer and took them down on the autos.

You Must Visit "Michael's"

The word must is not one which Americans are much in favor of nor one which we frequently use but there is a sense in which it is necessary to use it to express the full meaning.

It is possible to clothe yourself without visiting our store but you MUST visit our store if you want the best there is in Brainerd.

Our Visits to Market

We are frequently in market and have accounts with the best houses in America, which gives us the very best that is obtainable. We have standing orders with the best houses to rush to us by express, the new things as they arrive.

A New Departure

We have just recently contracted with one of the most successful merchandise men in America to look after our interests in the New York market. We get frequent advices as to the new things arriving and the best bargains offered as well. This service will be of much value to our patrons.

The Store

Our store is, and must continue to be, THE STORE of Brainerd. Every dollar spent with us will help to make this store a better store, which is much to your interest.

"MICHAEL'S"

They Fit Perfectly

W. B. Corsets

Yes, Madam, we do recommend W. B. Corsets. Their lines are always right—always in harmony with the latest style designs.

You can depend upon your new gown being right, if the foundation is a W. B.

This season the waist-line has that reductive curve, which is so attractive.

The bust is gracefully sloped too, and the lines of the back are simply perfect. They give the figure those sculptured lines which are so much admired.

There are so many styles of W. B. Corsets you can be fitted with the least trouble. Then the prices are so reasonable.

Nuform Model, \$1.00 up, Reduso Models, \$3 up.

The Two Versions.
The editor was trying to placate an indignant statesman.

"All we said about you in the paper, Mr. Krakajak," he assured him, "was that you seemed to have an inadequate sense of proportion."

"Not by a blamed sight!" roared the caller. "What you said about me was that I seemed to have an inadequate proportion of sense!"—Chicago Tribune.

Nipped.
"But," asked the defaulter, who was arranging for transportation to Mexico, "haven't you something special for tourists?"

"No," replied the ticket agent.

"Pardon me, but I have," chimed in the detective, appearing at that moment with a pair of steel bracelets; "here's something special for two wrists. Suppose you try 'em."—Catholic Standard and Times.

AFFLICTION.
Nothing so much increases one's reverence for others as a great sorrow to oneself. It teaches one the depths of human nature. In happiness we are shallow and deem others so.—Charles Buxton.

Affliction, like the ironsmith, shapes as it smites.—Bovee.

DEERWOOD MAY GET NEW FREIGHT DEPOT

Supt. K. M. Nicols and Gen'l Freight Agent Thomas Meet Commercial Club Members

RECOMMEND IMPROVEMENTS

Preparations for Commercial Club Banquet—Presbyterian Church

Fair—Other News

Deerwood, Minn., Nov. 23—Superintendent K. M. Nicols, of the Lake Superior division, and Gen. Freight Agent, J. I. Thomas, of Duluth, in company with other officials visited Deerwood in the former's private car yesterday afternoon. H. J. Hage took the party through the city in his automobile and also showed them most of the ore region surrounding the town, as well as the new towns of Crosby, Cuyuna and Ironton. The citizens of Deerwood are unanimous in their desire for better freight facilities. They want a new passenger depot, and an adequate freight depot on the east side of the crossing. Supt. Nicols heard all sides and said he would recommend the improvements asked.

Full details of the dynamite cap explosion are now known in Deerwood. It seems that Gerbert Peterson, the lad injured, was sitting in one of the rear seats of the school. He is said to have held the cap in his left hand and pried it with some instrument in the other hand. The resulting explosion blackened the top of the desk, tore his third reader to shreds, hurled fragments of flesh to the wall immediately back of him, and sending a part of the thumb to the ceiling, a finger 35 feet ahead and past the teacher, Miss Anderson, to the blackboard where it adhered and another finger to the side wall where it stuck. Blood spattered over the desk, and the boy, with his nose partly shot off, both hands lacerated and bleeding and his breast and face injured, tried to flee from the room. Loss of blood caused him to stumble and fall in the room. He was taken to Osterlund's drug store and bandaged and later sent to the Northwestern hospital at Brainerd. It is considered very lucky that no other pupils were sitting near him at the time of the accident or some one would have been killed.

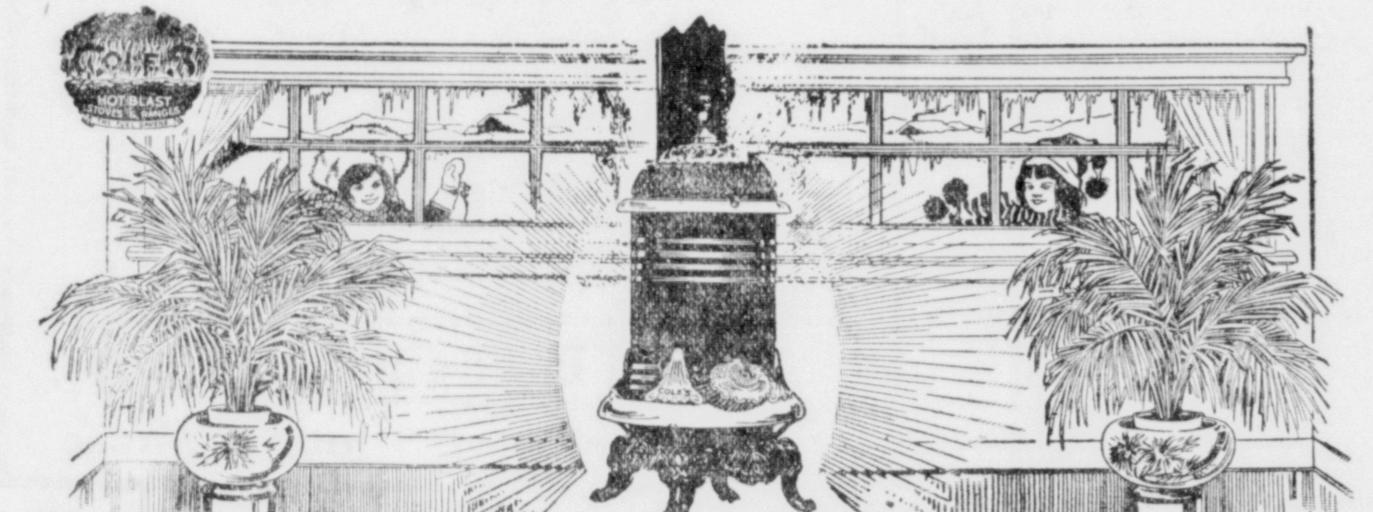

The banquet committee, of which N. P. Emil Carlson is the chairman, reports everything as progressing favorably. This will be the first banquet given by the Deerwood Commercial club. Nothing will be spared to make it a grand and unqualified success and the membership of over 40 and the musicians and speakers expect it to be one of the most jolly and enjoyable occasions in the history of the town. Col. C. D. Johnson, the senator-elect and noted after-dinner orator, of Brainerd, will deliver the principal address. An eight-course dinner will be served at the new Adams hotel, with plates being laid for 50. Monday evening, Nov. 28th, is the date of the occasion.

Rev. M. L. Hostager will preach next Sunday morning at the Norwegian Lutheran church.

The ladies aid of the Norwegian Lutheran church will have an auction sale at Coffin's hall next Saturday evening.

Olson Skau has completed tinting the John Humphrey residence and is now working on the R. Archibald residence.

John Southworth, Douglas Archibald, David Archibald, Sr., and Earl Archibald have returned from their

Plants May Be Kept Throughout The Winter

Throughout zero weather you can keep your house plants by using Cole's Original Hot Blast Heater.

This heater maintains a steady even temperature day and night. It will hold fire and heat over night and you can heat your living rooms for two hours next morning with the coal put in the night before.

The patented construction of

Cole's Original Hot Blast Heater

enables the manufacturer to guarantee it to remain always air-tight.

You have perfect control over the fire at all times. Thus, the coal does not waste away and you don't have to kindle a fire in the morning as with other stoves.

Think of it! Your dressing rooms and breakfast rooms warmed by the fuel put in the night before.

This truly great heater is growing in popular favor year after year. The following is a message just received from the manufacturer:

We are working full force to supply the demand
for Cole's Original Hot Blast Heater—Never in
our history was the demand so heavy for our
better finished heaters.

Cole Manufacturing Co.

Now is the time to select your heater. We will set one aside for you and have it ready when you wish it put up.

Burns Soft Coal, Slack, Lignite, Hard Coal, Wood and lighter fuel.

Come now while the assortment is complete.

GENERAL OUTFITTERS, UNDERTAKERS and EMBALMERS, PLUMBERS and STEAM FITTERS

CROSS LAKE NEWS

There was a program and dance at the new school house in the town of Allen. The program was good as the teacher, Miss Beth Cochran, who is a fine speaker, gave the three or four selections.

Last Saturday railroad men were at Headquarters to look over the rolling stock and rails, with view to purchasing and removing to Canada.

Mr. and Mrs. J. P. Saunders have gone to Fondulac, Wis., to spend Thanksgiving.

Graham's barber shop has completed the installation of a very convenient switch system of gasoline lights.

The gents' furnishings goods department of the Hage store is now occupying its new quarters in the northeast end of the store.

Mr. and Mrs. M. Wagner, of Aitkin, spent Thanksgiving with Mr. and Mrs. T. R. McBride.

A. D. Falconer, of Aitkin, has completed the removal of the Benson store from its old location to Pine street, where it now rests on a solid concrete foundation. Mr. Falconer did good work, for he moved the large store and all its contents and never cracked a window in the journey of about 300 feet.

William Elmore, the village blacksmith, is kept busy shoeing horses, as all are being sharp shod for the winter's work.

The socialist local recently organized in Deedwood, now has 66 names on its membership rolls. Their meeting place is in the room over the Elmore blacksmith shop. Frank Engman is president and Clarence Wheeler secretary.

Herman Peterson, Hugo Barthelmie and Carl E. Carlson attended the "Cinderella Girl" performance at the Brainerd opera house on Tuesday evening.

Miss O'Connell was suddenly called to Minneapolis to attend the funeral of her father. J. C. O'Connell, her brother, left on Tuesday. The death was a sudden and unexpected one in their family and they have the sincere sympathy of their many friends.

Frank A. Oberg has returned from a business trip to Minneapolis.

On Sunday evening Mr. and Mrs. Ernest Husman and Edward Boppel of Brainerd, were entertained at a dinner party at Guelker's cafe.

A section of track is reported to have dropped on the new Soo line near Palisade, going down 20 feet. Passengers are being transferred around it.

A new heating plant is being installed in the residence recently vacated by Dr. R. J. Sewall, to be occupied in turn by E. A. Lamb.

E. A. Lamb, the real estate man, is confined to his bed threatened by a touch of pneumonia.

The ladies aid society of the Presbyterian church cleared about \$63 from their recent fair and the proceeds will be used in the purchase of the lot for the new church, which will be erected opposite Supt. H. J. Kruse's residence. Fifteen dollars worth of candy was sold. Considerable money was made with the rebus contest, no one guessing all the conundrums. About 225 people visited Hiley's hall where the fair was held. The sale of cakes, lace work and other knitted works of art yielded considerable money. The conundrums were as follows: "What part of food does an orphan boy's ankle represent?" Bologna (belowkinne) "Why is the Presbyterian church like socialism?" You must believe to be convinced. "What two letters soothe the baby?" C and Y (candy). "What holds all the snuff in the world?" No one knows (nose). "Why does B come before C in the alphabet?" You've got to B before you can C.

An eight-course dinner will be served at the new Adams hotel, with plates being laid for 50. Monday evening, Nov. 28th, is the date of the occasion.

The banquet committee, of which N. P. Emil Carlson is the chairman, reports everything as progressing favorably. This will be the first banquet given by the Deerwood Commercial club. Nothing will be spared to make it a grand and unqualified success and the membership of over 40 and the musicians and speakers expect it to be one of the most jolly and enjoyable occasions in the history of the town. Col. C. D. Johnson, the senator-elect and noted after-dinner orator, of Brainerd, will deliver the principal address. An eight-course dinner will be served at the new Adams hotel, with plates being laid for 50. Monday evening, Nov. 28th, is the date of the occasion.

BRAINERD, MINNESOTA, TUESDAY, NOVEMBER 29, 1910.

Price Two Cents

ALL OF THEM WILL BE CLOSED

Saloons at Bemidji Must Go
Out of Business.

TWENTY-EIGHT ARE AFFECTED

Liquor Dealers Given Forty-eight
Hours in Which to Comply With
Order of Government Agent John-
son—Saloons at Brainerd Will Not
Be Closed for a Few Days.

Bemidji, Minn., Nov. 29.—W. E. ("Pussyfoot") Johnson, who has arrived in Bemidji, announced at a meeting of the directors of the Commercial club that nothing could save the saloons here and that the twenty-eight retail liquor places doing business in Bemidji would be wiped out within forty-eight hours. Mr. Johnson said that the saloons of Brainerd would be permitted to do business until after the convention in that city on Thursday and Friday of this week of the Northern Minnesota Development association, which is to be attended by Governor Eberhart and probably more than 500 other persons, many of prominence.

Mr. Johnson said that it had been definitely decided that some of the saloons on the iron range were to be closed. Just how many, he said, would be impossible to say until he had more thoroughly examined his maps to determine just what territory was included in the Indian treaty, under which he had the power to regulate the sale of liquor. The squad of Indian agents working out of the Bemidji subagency under T. E. Brents has not returned to Bemidji.

"Part of them are working in the vicinity of Perham," said Mr. Johnson. "They closed up two small towns there, so small in fact that I have forgotten their names. They will be on the job every day now until every saloon in the Indian district has been closed."

"It has been said that Bemidji would be the last town to be closed," was suggested.

"That is news to me," replied Johnson.

Mr. Johnson is anything but the type of man his enemies might expect to see. He greets all callers, including liquor dealers, cordially and there is no trace of bitterness in what he has to say of those who oppose his work.

Mayor Confers With Johnson.

Immediately upon his arrival in Bemidji Mr. Johnson went to the telegraph office, where a large bundle of telegrams was awaiting him. These he took to his room at the Harkham hotel, and most of the day was spent in writing letters and sending messages. Mayor Parker had a short conference with Mr. Johnson at the hotel which appeared satisfactory to both gentlemen.

"I intend to make the closing of Bemidji as agreeable as I can to all those involved, and shall put them away with as slight interruption in the business of the town as possible," said Mr. Johnson. "I have had a nice talk with your mayor and I shall confer with your city attorney, Mr. Torrence."

"Will the Bemidji brewery be forced to suspend?" was asked.

"I can give you no information as to that," was the answer.

Mr. Johnson commanded the efforts of the police force in minimizing the illegal sale of liquor here, but handed the city council a scorching roast.

"They can't pull off any of their funny tricks on me," said he, the merry countenance fading into one of grim determination. "They permitted men to reopen after we had closed them up. That is the sort of thing that leads to ruin and devastation."

Mr. Johnson would not say just how long he would remain in Bemidji, except, "I'll be around for while to see how things are going."

"Well, there is one more question: Is it offensive to have the newspapers refer to you as 'Pussyfoot'?" A merry burst of laughter and a loud "Not at all," was the answer.

RIGHT OF WAY IS WANTED

Sparta Military Authorities Would Have Railroad Extended.

La Crosse, Wis., Nov. 29.—Lieutenant Gilmore, U. S. A., in charge of the national range at Sparta, and Colonel McCay held a conference here with Congressman Esch concerning the securing of a right of way to be used jointly by the Milwaukee and the Northwestern railroads through the reservation near there. Every effort is being made to secure the building of the road to convey the troops to the range in case the national rifle meet, usually held at Camp Perry, O., is secured for Sparta next year.

All papers have cut out liquor advertisements and now stand the chance of losing hundreds of dollars.—London Spectator.

SOLID SOUTH IS WAVERING

New Orleans Opposed as Pan-
ama Exposition City.

TEXAS FAVERS SAN FRANCISCO

Decided Falling Off in Enthusiasm In
One Star State as Evidenced by
Articles Appearing in Papers of
El Paso and San Antonio—Swing
In Line For the California City as
the Logical Site.

While New Orleans is industriously claiming the endorsement of the Mississippi valley region and the middle west it is allowing the "solid south" to waver in its supposed allegiance and slip away.

A few days ago word came from San Antonio, Tex., that there was a decided falling off of New Orleans' exposition enthusiasts in that city owing to the greed of the Crescent City in attempting to secure the National Bankers' convention for next year, after San Antonio had put in a bid for their entertainment. Such action was not considered neighborly, especially after the Texas city had been asked to support New Orleans in its struggle for exposition honors.

Now El Paso, Tex., has apparently swung into line for San Francisco as the logical site for the Panama exposition, judging by the following in the El Paso Herald of Oct. 12:

"El Paso's Interest as to the location of the Panama exposition of 1915 all lies with San Francisco as against New Orleans. As one commentator says: 'There never was an exposition so successful as that at Seattle, and there never was one so forlorn a failure as that at Jamestown, Va., notwithstanding the fact that half the population of the country is with in a day's or a night's ride of Jamestown.' An exposition at San Francisco will promote the development of the west and that is what we are after."

Sometime ago New Orleans secured an endorsement in St. Louis and that success appears to have induced the belief among the Crescent City boosters that the entire middle west was only waiting for an invitation to climb on the New Orleans band wagon.

Next New Orleans announced that Omaha was for it, but the announcement was premature. In its hurry to report result the New Orleans bureau at Omaha sent broadcast over the country that New Orleans had been endorsed as the exposition city by the Commercial club, the largest and most influential organization of business men there.

Immediately the Commercial club held a meeting, repudiated the alleged endorsement of New Orleans and endorsed San Francisco by an overwhelming vote. The city council of Omaha, by unanimous vote, passed a resolution also endorsing San Francisco.

Still asserting title to the sympathy and influence of the entire middle west section, the New Orleans boosters descended upon Chicago and requested an endorsement. The request was politely but firmly refused.

But New Orleans, nothing daunted, continued to "claim" Chicago's support, confident in the belief that the endorsement would come later. But on Oct. 7 Chicago showed unmistakably where she stood in the exposition fight when the National Business League of America adopted a resolution, which after setting forth the advantages of San Francisco, concluded, "That San Francisco be, and hereby is, strongly recommended as the proper site for the proposed exhibition."

"Will the Bemidji brewery be forced to suspend?" was asked.

"I can give you no information as to that," was the answer.

Mr. Johnson commanded the efforts of the police force in minimizing the illegal sale of liquor here, but handed the city council a scorching roast.

"They can't pull off any of their funny tricks on me," said he, the merry countenance fading into one of grim determination. "They permitted men to reopen after we had closed them up. That is the sort of thing that leads to ruin and devastation."

Mr. Johnson would not say just how long he would remain in Bemidji, except, "I'll be around for while to see how things are going."

"Well, there is one more question: Is it offensive to have the newspapers refer to you as 'Pussyfoot'?" A merry burst of laughter and a loud "Not at all," was the answer.

curities Commission.

TALK BY JUDSON CLEMENTS

Interstate Commerce Commissioner
Presents His Views on Regulation
of Railroad Rates and Control of
Stock and Bond Issues—Physical
Valuation of Roads the Proper Basis.

Washington, Nov. 29.—"The interstate commerce commission believes that a physical valuation of the railroad properties of the United States is the first step toward adequate regulation of rates; and I believe the same principle applies to the establishment of a basis for a control of stock and bond issues," said Judson Clements of the interstate commerce commission at the first public meeting of the new railway securities commission.

The commission appointed by President Taft under authority of the railroad law passed by the last congress began hearings at which members of the interstate commerce commission and state commissioners from Massachusetts and other states will present their views of federal control of issuance of railroad bonds.

President Hadley of Yale university presided.

"We have not agreed upon a remedy for the present situation regarding stock and bond issues," said Mr. Clements. "If we had solved the problem there would be no need for the appointment of a commission such as this one. There is no dissenting voice on the interstate commerce commission, however, to the proposition that regulation and control of securities is necessary."

Commissioner Clements said he had opposed the measure introduced in the last congress to regulate the issuance of securities because he did not believe it embodied all the features such as a law should have. He objected to the provision that no new road should be allowed to sell its stocks and bonds below par. Some new railroads had to do this, he said, in order to obtain funds for construction work.

Limit Should Be Fixed by Law.
Mr. Clements said he believed the body having control of the railroad securities should be authorized to allow the issuance of such certificates at less than par where the cases justified such action, but that a limit should be fixed by law below which the price could not be reduced.

Walter L. Fisher of Chicago, F. N. Judson of St. Louis, Frederick Strauss of New York and B. H. Meyer of Madison, Wis., the other four members of the interstate commerce commission were all present. They asked the members of the commission whether that body had made plans for a general valuation of the property of all the railroads. Mr. Clements said it had not, but that experts could be put under the supervision of the commission who would be able to fix a value that would give shippers and government authorities a basis for the defense or condemnation of rates.

The commission will not attempt to agree upon any plan for stock and bond control until it has discussed the situation thoroughly with the federal and state commissioners.

The complexities of the long and short haul phases of railroad traffic were threshed out before the interstate commerce commission and the interpretations to be placed on provisions of the fourth section of the amended interstate commerce law governing this subject, were taken under advisement.

All day counsel for railroads in all parts of the country argued their views as to the way the commission should interpret that section.

MONTANA BANKS CLOSED

Two Institutions Forced to Suspend
Operations.

Butte, Mont., Nov. 29.—The Hewitt State bank at Basin, Mont., was closed by the state examiner, acting upon orders from Attorney General A. J. Galen. A statement was made to the effect that the stockholders have overdrawn and the bank has failed to pay as an investment M. L. Hewitt, mining promoter, is president and former Governor A. E. Spriggs is vice president. The capital stock is \$30,000 and the deposits \$35,000.

The banking firm of Friday & Jamieson at Harlowton was closed, and as a result several Harlowton business firms have passed into receivers' hands. The extent of the liabilities of the bank and its assets are not yet known, pending a statement to follow examination.

Fails Eighty Feet to His Death.
Bismarck, N. D., Nov. 29.—William Tracy was instantly killed when he fell from the Northern Pacific bridge between here and Mandan. He broke his neck and fractured his skull.

Tracy and two companions had spent the day at Mandan and were returning in the evening when they started to race across the high bridge. Tracy was missing. After several hours of search he was found hanging by a rope in a cow barn. Life had been extinct for several hours.

WEST DESIRES STATE CONTROL

Governor of Montana Discusses
Natural Resources.

TELLS OF ST. PAUL CONGRESS

Declares Western Delegates Were Ex-
pected to Sit at the Feet of the East-
ern Conservation Sages and Accept
Their Views at That Meeting—West
Favors the Best Plan to Accomplish
Conservation.

Chicago, Nov. 29.—Criticising the
National conservation congress held in St. Paul last September, because, he said, the Western delegates were expected to sit at the feet of Eastern conservation sages and accept their theories, Governor Norris of Montana, in addressing the United States Land and Irrigation congress here, said the West believed in the doctrine of state as opposed to federal legislation to conserve resources.

It sets aside the present system of certification of teachers through markings by the state department, and while the substitution for such a plan may be plain enough in the minds of the framers of the law, to an outsider the plan to be substituted is rather vague and uncertain. It is asserted that it attempts to take away local self-government from schools and provide for school districts to be governed by district boards. The counties are to be the unit, with smaller districts where counties contain cities. The people of each local school are to select a school director, who is to be their representative before the school board, but is not to have any voting power in the deliberations of the board.

The new code attempts to cut loose from direct state appropriations for the maintenance of state educational institutions, and to provide for their support by a direct tax levy to be kept separate from and handled outside of the state general fund.

HOMESTEADERS ARE PUZZLED

Land Office Decision Raises Question
on Absence of Claims.

Rapid City, S. D., Nov. 29.—That homesteaders commuting under the two-year plan cannot absent themselves from their claim and must show "substantially continuous residence" during the full period, is the holding of the general land office at Washington. Without defining in detail just what is meant by the phrase "substantially continuous," the commissioner sustains the decision of the local register and receiver who rejected the proof of Maxwell F. Farley.

Farley asserted that his absence from his homestead was unavoidable and furnished proof, but the commissioner held that inasmuch as he was absent four and a half months, this was not substantially continuous and that moreover the "claimant was not altogether upon the land more than twelve and a half months."

The decision is of great interest to homesteaders and the query is raised whether the absence of even one day will be construed as not "substantially continuous residence."

DOES NOT AGREE WITH HILL

Standard Oil Director Cannot Share
Pessimistic Views.

New York, Nov. 29.—Among the men in the financial district who commented upon the pessimistic trade prospects credited to James J. Hill, chairman of the Great Northern, was E. T. Bedford, a director of the Standard Oil company and president of the Corn Products Refining company.

Mr. Bedford disagreed with Mr. Hill and indicated that he saw no signs of business lapse in 1911. This is the way he voiced his hopeful outlook:

"I cannot share the pessimistic views of Mr. Hill. I believe we are going to have a slow but healthy recovery in business with a gradual strengthening of confidence."

PARLIAMENT IS DISSOLVED

New Body Summoned to Assemble
Next January.

London, Nov. 29.—With the dissolution of parliament all formalities preliminary to the election of a new parliament were completed. The proclamation of dissolution summoned the new parliament to assemble on Jan. 31, 1911.

Among the first of its members to be elected unopposed will be Arthur J. Balfour, the opposition leader, the Liberals having decided not to contest his seat for London.

UNION MAIL

TUESDAY, NOVEMBER 29, 1910.

PROBABLY CLOSE MONDAY

The Pioneer Press in a Bemidji special says that W. E. Johnson has given out the information that "Brainerd saloons would be permitted to do business until after the convention in that city, Thursday and Friday of this week." The information is given out, but its reliability is not vouched for, that the closing order will go into effect Monday.

ADVANCE GUARD ARRIVING

W. R. Mackenzie, secretary of the Northern Minnesota Development association, arrived from Bemidji today. Mr. Mackenzie is enthusiastic over the prospects for a big attendance at the convention. He expects 100 Bemidji people to arrive by special car Wednesday night.

Hon. G. G. Hartley arrived from Duluth this noon and is quartered at the Ransford. The Duluth and Bemidji delegations will arrive at midnight Wednesday in special cars.

The Crookston contingent are expected Wednesday night, information being received that they would occupy a car of their own.

AS TO REAPPORTIONMENT

Governor A. O. Eberhart is the first speaker on the program Thursday morning, and at that time will express his views on reapportionment, and if he uses a little aggressiveness during the next legislative session, we will be sure to have reapportionment of the state.

A few explanatory remarks may be desirable at this time. At the last election an amendment to the state constitution referring to reapportionment was presented to the voters. The members of the Northern Minnesota Development association urged the voters to vote against this amendment, and the amendment was lost as it should have been. And why?

The constitution specifically states that there "shall be" a reapportionment at the first session after "every census. Generally some selfish and local reapportionment would be effected favoring southern districts but would soon be stopped without any further adjustments as to the northern districts. Eighteen years have now passed since a just and general reapportionment was made. Our southern representatives were instrumental in bringing before the public the late and defeated constitutional amendment which provided that instead of "shall be" there "may be" a reapportionment after "any" census, giving the illegitimate ma-

jority the specific privilege of reapportioning whenever they would see fit, probably never. That is why it was urged to defeat that amendment. Now we want that reapportionment as it is intended, and all our northern senators and members of the house are pledged to support it at once. We can not force the measure without the necessary votes, and the southern part of the state has the majority of the votes because of its unfair apportionment and representation.

Without reapportionment and a fair representation, all the other features for which the Northern Minnesota Development association stands will very likely be lost to us.

Get together now and attend the meeting at the opera house on Thursday, December 1st, and show the governor and the people of the state that you are supporting our demands.

State of Ohio, City of Toledo, Lucas

**THE MAIL BOXES
HAVE ARRIVED**

Request of Commercial Club Has
Been Granted and Two Boxes
Will be Placed at Depot

DRY ORDER WILL BE CONSIDERED

At Special Meeting Called for Mon-
day Evening at Club Rooms—
Good Attendance Desired

A resolution was adopted, all voting
aye, that East Oak street between the
east line of South Sixth street and the
east city limits be macadamized and curbed.

A resolution ordering in sidewalks
on the west side of lot 18 of block
198 was adopted, all voting aye.

Another resolution ordering the
macadamizing and curbing of North
Ninth street between Kingwood and Fir
streets was adopted, all voting aye.

The city attorney was instructed
to look up the validity of the sink-
ing fund commissioners handling
sewer warrants.

After the meeting the special ordi-
nance committee, Messrs. Henning,
Drexler and City Attorney Ryan
held a meeting. The finance com-
mittee, Messrs. Paine and Dieck-
hau also had a meeting.

**DECORATE YOUR
HOMES DEC. 1 AND 2**

If You Have Any Bunting or Flags
Display Them Thursday and
Friday For

THE GREATEST CONVENTION

Northern Minnesota Development As-
sociation Meeting is Now of
State Wide Importance

And the ladies are interested in
the great Northern Minnesota Devel-
opment association meeting at Brainerd
on Thursday and Friday, Decem-
ber 1 and 2.

"Why can't we help too and show
our appreciation of this great gathering?" said a prominent society
woman of the city. "Let us decorate
our homes with bunting and display
the American flag.

"Let the business men decorate
their places of business. It only
needs one or two to set the example
and we shall have the whole city a
mass of glowing color to welcome the
delegates and visitors to our charming
city. I wish your paper would
mention it for us."

It will take a few minutes time
to do this and it will impress every
visitor of the fact that Brainerd's
citizens stand unanimously for the
principles enunciated by this great
gathering.

The large "Welcome" electric sign
has been placed in position near the
depot and will blaze out in the night
so that every visitor and passing
traveler on the many trains making
Brainerd will see it.

The power plant at the shops is in
good shape and all the street lights
will be turned on with all five globes
blazing a welcome.

Don't forget the bunting and the
flags.

Boiling Water.
Rapidly boiling water cooks no faster
than that which barely bubbles, but
only evaporates faster.

CLEANING OF STREETS

A Few Thoughts Concerning Con-
ditions to be Found in
Our City

Every citizen of Brainerd should
have a personal interest and patriotic
pride in the appearance of his
home town. To meet a person in
some other town who has visited us,
and have him speak of us in terms of
praise for our civic excellence would
sound like music to our ears, if we
deserved it. Let us take an introspective
view of the situation. Let us be honest with ourselves. We
should not do as the foolish ostrich,
who is said to hide his head in the sand when pursued, thinking
the pursuers doesn't see him, because
he has shut his eyes. Don't let us hide our heads in the sands of
indifference, we are seen anyhow. Our
critics may be too polite, or circumspect to tell us our short comings,
although carrying away with them
the bad impressions about us. Some of us pay the sprinkling cart to keep
down the dust, others do not, although
getting the benefits—this means shirking—don't shirk. No
one thinks that our ordinance which
forbids the throwing of papers, and all sorts of rubbish in the streets, is
violated by any law abiding citizen.

The matter of holding a smoker on
Wednesday evening was discussed.
Mr. Dunn tendered the use of the
hall in the Citizens' State bank building
and it was accepted and Messrs.
John Krekelberg, Henry Linnemann
and W. H. Cleary were appointed a
committee to have full charge of the
affair. The Commercial Club expects
that all its members will attend this
meeting and make the visitors who
are in the city at that time feel that
they are being given the attention
they deserve. A good program of
music will be arranged.

The matter of closing the sal-
oons in Brainerd in consequence of
the enforcement of the terms of the
Indian treaty of 1855 by the govern-
ment was discussed. Mr. Alderman,
who interviewed "Pussyfoot" Johnson
at Detroit a day or so ago, was
called on and in the course of
his remarks stated that Mr. Johnson
informed him that every saloon
in the territory embraced by the provi-
sions of the treaty would be closed
as fast as he could get to them. Brainerd
would share the same fate as
the rest and that the saloon keepers
were advised to dispose of their
stocks on hand within the next few
days. The inference gained, while
not explicitly stated, was that within
ten days the deputies would arrive
in this city and carry out the orders
of the department and the town
would be dry. The matter of having
the club take some action in the way
of resolutions requesting the depart-
ment to so modify its order that
it would not affect places remote
from Indian reservations and work a
hardship on many people who are not
in any way violating the laws of the
land, was discussed. It was finally re-
ferred to the legislative committee
with instructions to report at a
special meeting called for Monday
evening at 8 o'clock at the club
rooms.

W. H. Gemmell, chairman of the
public affairs committee, reported
that he had received a communication
from Postmaster Ingersoll stat-
ing that the postal department had
granted the request of the club and
ordered the mail boxes to be erected
at both ends of the platform at the
railway station in this city, and that
the boxes had already arrived, and
will be placed in position as soon as
the necessary authority for installing
them can be obtained. These boxes
will be for the accommodation of the
public after the regular hour for
closing the postoffice, for visitors
passing through the city and the
mail will be collected by the railway
mail clerks. No mail will be col-
lected from these boxes by the city
carriers.

"Clean up! Clean up! Please,"
Contributed to Publicity Committee,
Commercial Club.

**GOV. EBERHART
COMES IN SPECIAL**

Gov. A. O. Eberhart, State Officials
and Many Legislators to Come
in Special Train

ARRIVING WEDNESDAY NIGHT

W. H. Gemmell Accompanies Party
From St. Paul, Visiting Inter-
national Falls and Brainerd

Governor A. O. Eberhart, various
prominent state officials and numer-
ous state legislators will leave St.
Paul in a special train accompanied
by W. H. Gemmell, general manager
of the Minnesota and International
railway and tour northern Minnesota,
visiting International Falls and
other points north.

On their return this way they will
arrive at Brainerd Wednesday night
in time for the big convention.

Under the guidance of Mr. Gem-
mell many of these visitors will get
their first glimpse of the boundless
possibilities of northern Minnesota.
Many of these southern Minnesota
county men will understand better
what northern Minnesota is fighting
for.

Exhibiting northern Minnesota and
in this manner expounding northern
Minnesota doctrine at the convention
will gain many converts.

Ayer's Cherry Pectoral Doctors

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

Is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

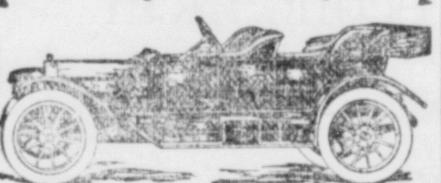

The burner body or gallery cannot become wedged, and can be quickly unscrewed for rewicking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

Columbus Buggy Co.
Northwest Branch
MINNEAPOLIS, MINN.

E. C. BANE'S REAL ESTATE AGENCY

FOR SALE—One Hundred and Sixty pairs of roller skates and all the repairs and repair outfit at a snap for cash. Now is the time to start a rink in some of the new mining towns. No reasonable offer refused.

Butter In Slices.

From time immemorial in Cambridge, England, the dairymen sell the butter so as to form a long stick weighing a pound, which they sell in slices, as if it were sausage. In the market the butter merchants do not care to use either weights or scales. A simple glance is sufficient for those accustomed to the time honored practice. A very neat cut with the knife divides the yard into halves, quarters or eighths very exactly, and it appears that the customer is never given short measure.

The Poor.

We all love the poor. It would be entirely unnecessary, if not positively callous, to say that we hate the poor. But there are two kinds of poor—the individual poor and the collective poor. It is not the individual poor that we love; it is the collective poor. It is not the poor that we know and see, but the poor that we do not know and have neither time nor inclination to look at. We are afraid if we see them we shall cease to love them. We never say, "God bless the leeman, or the coal heaver or the motorman." For them we find our excavations for not contributing to our comfort just so and so.

It is with great fervor, however, that we can say, "God bless the poor," because the poor do not interfere with our comfort to the slightest degree. Life.

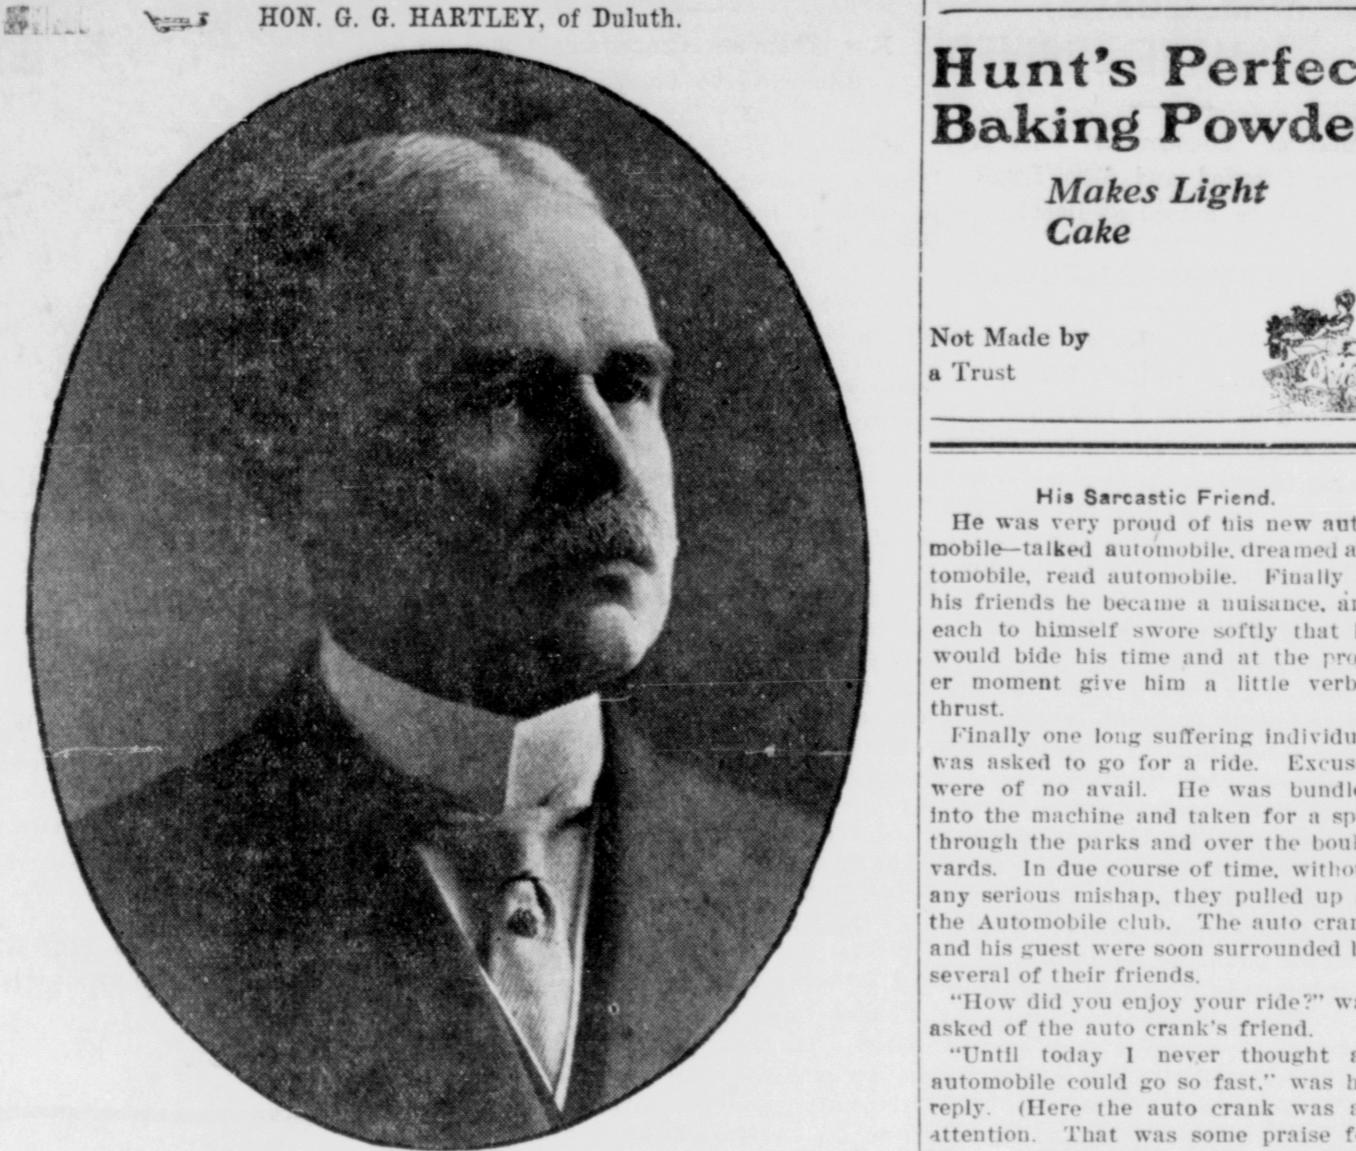

Five Horses Cremated.

Sisseton, S. D., Nov. 29.—Five horses were cremated when a large barn owned by William Simons of Grant township, Roberts county, was destroyed by fire. With the barn was burned 500 bushels of wheat and thirty tons of hay. The loss, about \$6,000, is total, with no insurance.

YOUR REGULAR JOB

of feeding the furnace won't be such a long one if you use our clean freeburning coal. For every shovelfull you put in will mean more heat than you ever get before from the same quantity of coal. Consequently you need less coal and have to do less shoveling. See the point?

JOHN LARSON

HON. G. G. HARTLEY, of Duluth.

Hunt's Perfect Baking Powder

Makes Light
Cake

Not Made by
a Trust

His Sarcastic Friend.

He was very proud of his new automobile—talked automobile, dreamed automobile, read automobile. Finally to his friends he became a nuisance, and each to himself swore softly that he would bide his time and at the proper moment give him a little verbal thrust.

Finally one long suffering individual was asked to go for a ride. Excuses were of no avail. He was bundled into the machine and taken for a spin through the parks and over the boulevards. In due course of time, without any serious mishap, they pulled up at the Automobile club. The auto crank and his guest were soon surrounded by several of their friends.

"How did you enjoy your ride?" was asked of the auto crank's friend.

"Until today I never thought an automobile could go so fast," was his reply. (Here the auto crank was all attention. That was some praise for his car. Right out in public too. That would silence some of the scoffers who said his machine should be called Snail.) "Why, do you know there was a car went by us at such a clip that I could hardly see it."

The auto crank glared, and under his gaze the group melted away. They had had their revenge.—Pittsburg Gazette-Times.

Military Skaters.

In the Norwegian army there is a corps of infantry every man of which is an expert skater. On skates this corps can perform a day's march of eighty miles, which equals the performances of the best trained cavalry in Europe. The evolutions of the corps are confined to the great fjords which indent the coast of Norway, these fjords being frozen over during the long winter season.

LIGHT AND POWER FOR CUYUNA RANGE

Deerwood and Range Towns to Have
Light and Power Plant Ready
by February 1st

M. D. STONER GETS FRANCHISE

Work Commenced This Week on
Warehouse and Brick Building
For the Power Plant

M. D. Stoner, of Bemidji, has secured franchises in Deerwood and Cuyuna for an electric lighting system and before spring expects to get into Ironton and Crosby. He has purchased property in Deerwood for his power station and office and has started this week to erect a warehouse and brick building for the power plant.

He has purchased a 200 kilowatt generator and 300 horse power cross compound Corliss engine which he will install as soon as the building is completed. Everything is expected to be completed by February first, 1911. As soon as a power load can be secured work will be commenced on the Crow Wing dam and the current transmitted to the said towns by a transmission line running direct from the dam to Ironton, which will pass in close proximity to Brainerd.

Mr. Stoner anticipates a good lighting and power business on the new range and is putting in a first class steam plant to develop the business with provision for doubling its size if necessary.

It is expected that continuous current will be maintained shortly after the plant is started, which will give his patrons the best of service.

Rheumatic Pigs.

Pigs are troubled by rheumatism more than by any other disease. Its work is so insidious oftentimes and its attacks so various in form that it is not recognized, but it may be set down as a rule that if the pig is afflicted by some mysterious malady, particularly one that incapacitates it in some manner, it is rheumatism. Country Life in America.

INDIGESTION VANISHES

A Little Diapepsin Really Does Make
Your Out-of-Order Stomach Feel
Fine in Five Minutes

Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring;

the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

AMUNDSEN ENTERS SOUTH POLE DERBY

Five Other Expeditions Under Way to Beat Shackleton's Record.

THE field of south pole contenders grows larger and is now the best frigid sporting proposition the world has seen. Peary and Cook caused some turmoil with their race to the northern extremity, but that historic event will be as nothing compared to the field of six expeditions that will endeavor to surpass Lieutenant Sir Ernest Herbert Shackleton, who came within 110 miles of his mark.

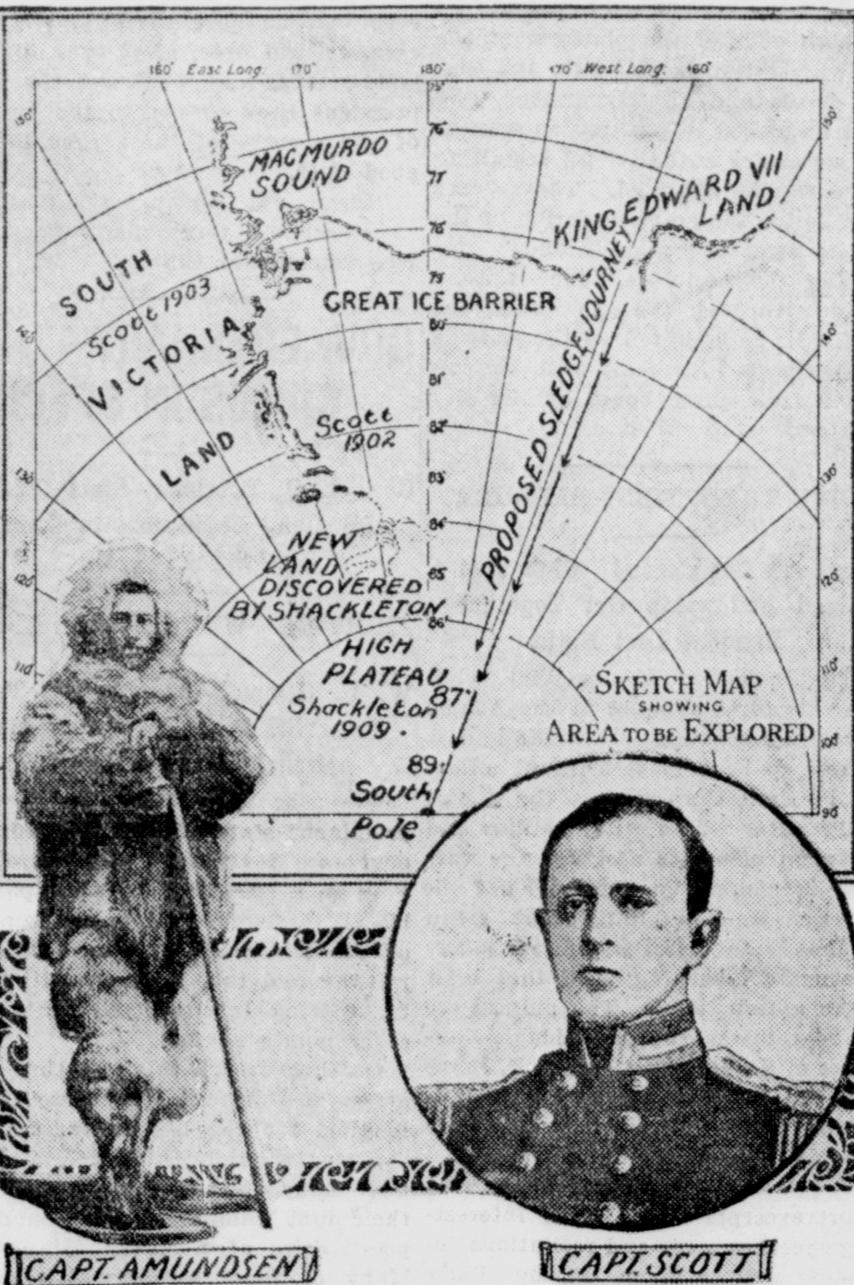

The latest entry is Captain Roald Amundsen, who has notified the Nor-

Peary-Cook Race to Fro- zen North Becomes Insignificant

Canter.

Captain Robert A. Scott's British expedition set sail from London June 1 on the Terra Nova, hoping to reach the goal in December of next year. Lieutenant Fliehner of the German army general staff plans to start his expedition in two vessels soon if he gets the \$500,000 he wants; with one ship if he raises only \$250,000.

Lieutenant Shirase, a retired officer of the Japanese navy, has organized an expedition to start from Tokyo shortly in a 200 ton sailing vessel with auxiliary steam engine. This party

TWO ENTRANTS IN RACE FOR SOUTH POLE AND MAP OF CAPTAIN SCOTT'S PROPOSED ROUTE.

will be equipped for rapid work and will carry nothing not absolutely necessary.

An agent of the Argentine government visited the Fore River shipyard at Quincy, Mass., to study the plans of Peary's arctic craft to get ideas for a ship to carry an expedition to the antarctic region.

The American south polar expedition, under the joint auspices of the National Geographic society and the Peary Antarctic club, has postponed its date of starting until '11.

Do It Now

Don't forget the old proverb, "A stitch in time saves nine". If you have any defective plumbing or heating have it attended to now before it is too late. We are always pleased to talk with you on any work you may have in our line and assure you that our prices are the lowest. All work absolutely guaranteed and given prompt attention. Remember the place. It is
